🔗 LeetCode 🔗 CodeChef

PROFESSIONAL SUMMARY

Aspiring Web Developer and AI Developer with hands-on experience in building full-stack applications using React.js, FastAPI, PostgreSQL, and modern web technologies. Skilled in REST API development, real-time systems, machine learning applications, and problem solving with a strong foundation in Data Structures and Algorithms.

EDUCATION

Vignan's Institute of Information Technology <i>B.Tech, Computer Science Engineering</i>	2023 – 2027 CGPA: 8.9
Tirumala Junior College, Vizag <i>Intermediate, MPC</i>	2020 – 2022 Percentage: 93.1%
ZPH School Jonnavalasa, Vizianagaram <i>SSC</i>	2019 – 2020 Percentage: 94.5%

SKILLS

- **Languages:** Java, Python, JavaScript, C
- **Frontend:** React.js, HTML5, CSS3, Responsive UI Design
- **Backend:** FastAPI, Node.js, Express.js, REST APIs
- **Databases:** PostgreSQL, MongoDB, SQL
- **AI/ML:** Machine Learning, Predictive Analytics, Recommendation Systems
- **Tools:** Git, GitHub, Linux, JWT Authentication, WebSockets
- **Core Concepts:** Data Structures & Algorithms, Problem Solving

PROJECTS

CargoMate – AI-Powered Logistics & Transportation Platform	React.js, FastAPI, PostgreSQL
• Developed a full-stack logistics platform connecting shippers and drivers for shipment management and transportation services. • Implemented shipment posting, driver bidding, real-time tracking, and WebSocket-based chat functionality. • Built AI-powered driver recommendation and freight cost prediction modules using machine learning techniques. • Developed shipment delay prediction and ETA estimation features to improve delivery planning. • Integrated digital proof of delivery with image upload, customer signature capture, and PDF generation. • Designed secure REST APIs, JWT authentication, PostgreSQL database schemas, and analytics dashboards for operational insights.	

INTERNSHIPS

Web Full Stack Developer Virtual Internship AICTE EduSkills	Oct 2024 – Dec 2024
• Developed full-stack web applications using modern front-end and back-end technologies, implementing responsive user interfaces and RESTful APIs. • Integrated databases, performed application testing, and followed industry-standard software development practices during project implementation.	
AI-Machine Learning Internship CSC India (APSCHE)	May 2026 – Jun 2026
• Applied machine learning techniques including data preprocessing, feature engineering, model training, and performance evaluation using Python. • Worked on AI-driven solutions and gained practical experience in predictive modeling, data analysis, and machine learning workflows.	

ACHIEVEMENTS

- Solved 110+ problems on LeetCode focusing on Data Structures and Algorithms.
- Solved 175+ programming challenges on CodeChef and actively participate in coding contests.
- Participated in 80+ competitive programming contests on CodeChef.

CERTIFICATES

- Python Essentials – CISCO
- JavaScript – CISCO
- Java (OOPs) – NPTEL
- DSA – Udemy
